

# Release Notes - June 21, 2021

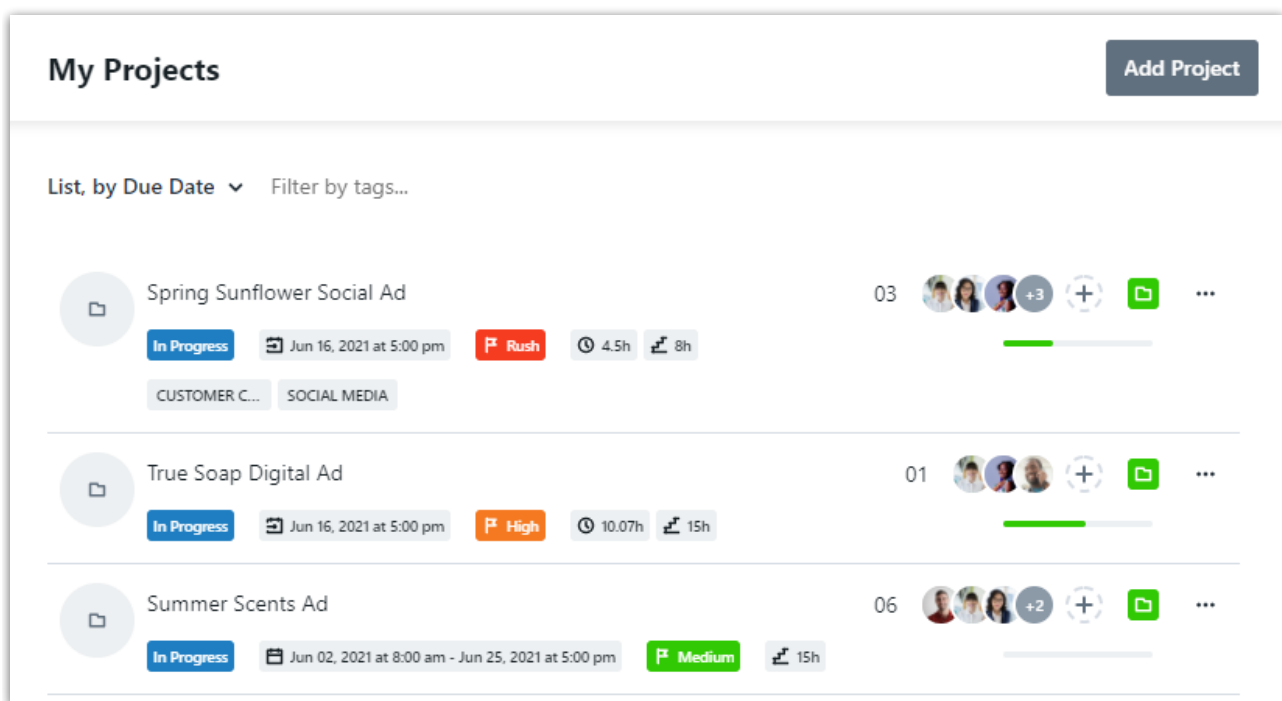

Published on 01/27/2022

## New Features

### Priorities\*

Not sure what to work on next? Communicating the relative importance of all the work your team is juggling is paramount to achieving alignment within your organization and managing your team's ability to produce desired outcomes. Now you can easily assign the appropriate level of priority to projects, tasks, and proofs in inMotion ignite with our [Priorities](https://guide-ignite.inmotionnow.com/help/priorities) (<https://guide-ignite.inmotionnow.com/help/priorities>) feature! Head over to your Account Settings to start adding priorities that align with your organization's needs.

*\*Available only to Business & Enterprise Customers*

### Duplicate Work Groups

Cut down on repetitive work when creating similar work groups in projects and project templates! Now you can duplicate work groups and edit the details to fit your needs.

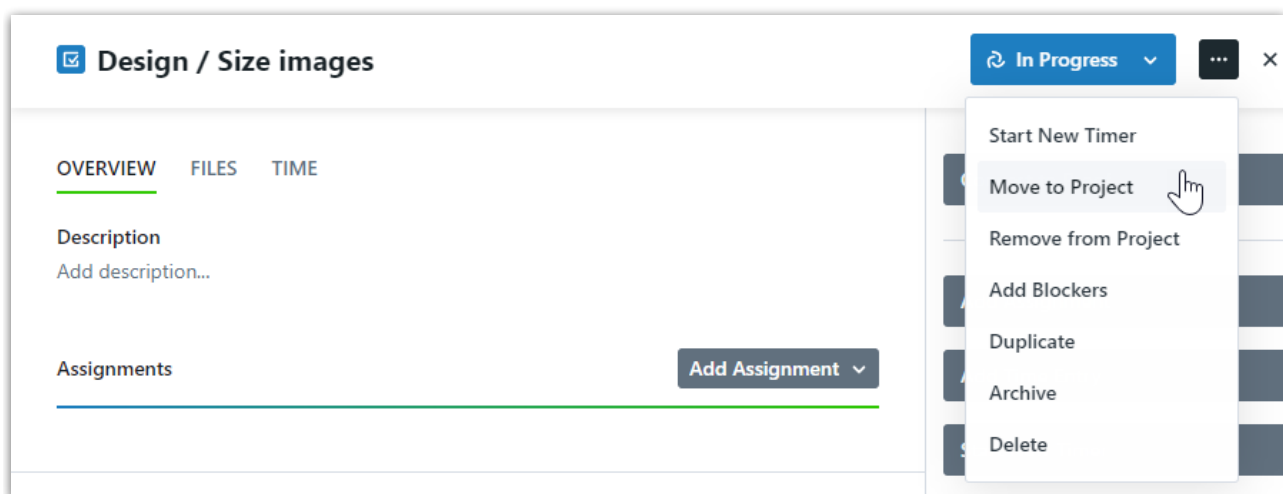

## Improvements

- Notifications will now be sent to all users the request is shared with if notifications for **My request is completed** is toggled on.

- Copy has been updated in the actions menu for projects and work to **Move to Project** and **Remove from Project** instead of link/unlink.

## Feeling nostalgic? Here's what we released...
