

Release Notes - January 10, 2022

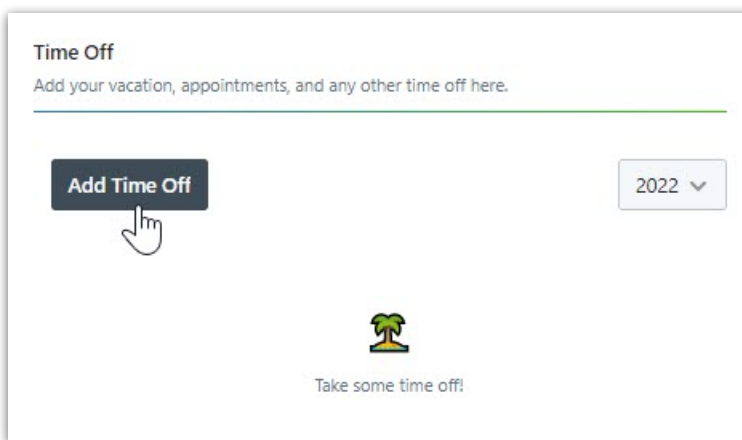

Published on 01/27/2022

New Features

Plan for Personal Time Off with Availability*

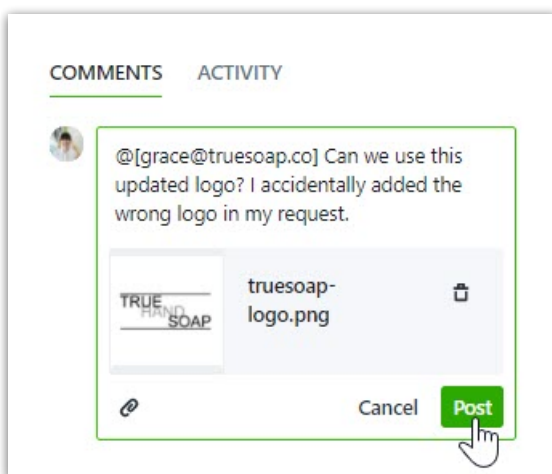

We all need time off! Now in addition to account non-business days, Team Members can adjust their [individual availability](https://guide-ignite.inmotionnow.com/help/availability#adding-editing-time-off) in Personal Settings. Additionally, Managers will be able to manage time off for team members through the People page and Users reports. Time off will be visible in [Workload](https://guide-ignite.inmotionnow.com/help/resource-management-workload#workload-by-level-of-effort) view for easier, more accurate assignments!

**Available only to Business & Enterprise Customers*

Do More with Your Comments

Now you can [attach files to your comments](https://guide-ignite.inmotionnow.com/help/collaboration#attaching-files-to-comments) in requests, campaigns, projects, tasks, and proofs. This allows for files to be shared even after a request has been accepted, helping keep important information and collaboration all in once place. Additionally, comments can now be [edited and deleted](https://guide-ignite.inmotionnow.com/help/collaboration#editing-and-deleting-comments%C2%A0) allowing more freedom and fewer typos!

Improvements

Quality of Life Improvements

- Now line breaks will be preserved in email notifications ensuring your notifications are sent and received with easy readability.
- Now any Team Member with access to a request will be able to edit the name of a request, even after it's been accepted.

Feeling nostalgic? Here's what we released...

- **Six months ago: Priorities** (<https://guide-ignite.inmotionnow.com/help/release-notes-6-21-2021>)
- **One year ago: The Form Template Builder** (<https://guide-ignite.inmotionnow.com/help/release-notes-1-11-2021>)
- **Eighteen months ago: Cascading Custom Fields** (<https://guide-ignite.inmotionnow.com/help/release-notes-6-29-2020>)
- **Two years ago: Bulk Date Shifting in Gantt Views** (<https://guide-ignite.inmotionnow.com/help/release-notes-1-13-2020>)
