

Release Notes - June 5, 2023

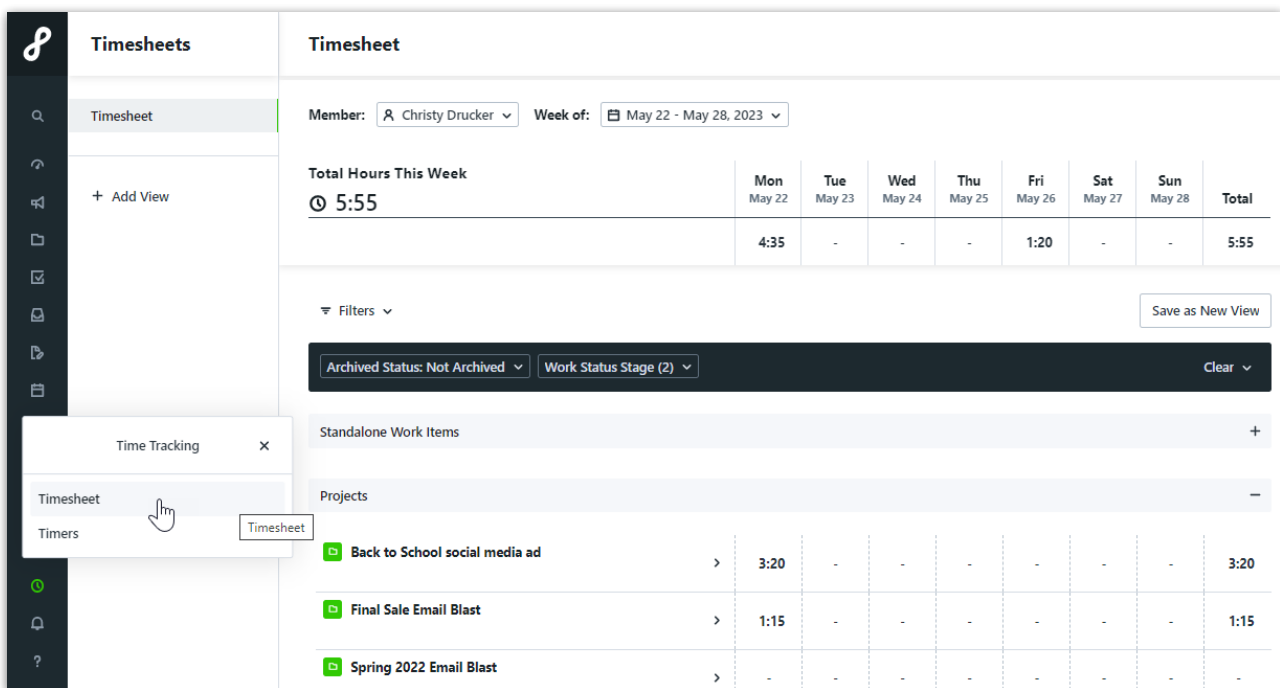

Published on 05/24/2023

New Features

Timesheets*

Timesheets (<https://guide.lytho.com/help/timesheets>) supports effective time management for teams by providing an easy process for logging time across all task and proof assignments, visibility to gaps in logged time, and aggregate data for at-a-glance insights into capacity. Turn on Timers & Timesheets within the [Time Tracking feature settings](https://guide.lytho.com/help/general-settings#time-tracking) (<https://guide.lytho.com/help/general-settings#time-tracking>) to get started today!

**Available only to Business & Enterprise Customers*

Create Zaps Directly in Workflow*

The [embedded Zapier experience](https://guide.lytho.com/help/zapier-login#begin-building-a-zap-in-lytho) (<https://guide.lytho.com/help/zapier-login#begin-building-a-zap-in-lytho>) allows you to discover, create, edit and manage zaps without having to leave Lytho. Now teams can quickly and seamlessly implement Zapier automations and data transfers from within Lytho to improve operational efficiency without wasting time or losing focus switching between apps.

**The Lytho + Zapier integration is currently in Beta and is not yet available to all customers. If you do not have access and would like to begin your automation journey sooner, reach out to us at success@lytho.com.*

Integrations

Zapier

Zapier connects Lytho to all the software you rely on

-  Automate repetitive tasks without writing code.
-  Build custom workflows to save time.
-  Connect 5,000+ apps you already use.
-  Free forever for core features. 14-day free trial for premium features.

Improvements

View Time Tracked in Workload Views

[Workload](https://guide.lytho.com/help/resource-management-workload) (<https://guide.lytho.com/help/resource-management-workload>) view will now show tracked time, making it easy to quickly compare time tracked and level of effort.
