Improvements

Enhance Your Reporting and Custom Views with the Request Form Filter and Column

A new powerful filter and column, Request Form, is now available in custom views and reports. Filter by specific request forms, even those in draft, to easily view requests or work items needing your attention. Add the Request Form column to quickly identify the associated form for each work item or request, providing you with crucial data to optimize your processes efficiently.

The screenshot displays the 'Requests - Need To Accept' interface. At the top, there's a search bar and navigation options like 'Table', 'Sort', 'Filters', and 'Columns'. Below this, a filter bar shows 'Request Members (1)', 'Archived Status: Not Archived', 'Request Status (1)', and 'Request Form (2)'. A table lists three requests, all with a status of 'Submitted' and 'True Soap HTML Email' as the request form. A dropdown menu titled 'Filter by Request Form' is open, showing a search bar and a list of request forms: 'True Soap General Request', 'True Soap HTML Email', 'I need to request multiple items', 'Internal Marketing Team Form', 'True Soap Social Media Request', and 'True Soap Video Request'. The first two are marked with green checkmarks. A 'Clear' button is at the bottom of the dropdown.

REQUEST NAME	REQUEST STATUS	REQUEST FORM
Back To School Email Blast	Submitted	True Soap HTML Email
Summer Scents Email Blast	Submitted	True Soap HTML Email
End of Summer Sale Email Blast	Submitted	True Soap HTML Email

Feeling nostalgic? Here's what we released...
