Improvements

View More with Gantt and Calendar Views

Gantt and Calendar views in Campaigns, Projects and Work Custom Views allow you to visualize timelines and impacts of assignments at whatever altitude you need to best understand your operations. Think custom visual views for campaigns, content, brands, or teams!

Rich Text Editing in Comments

Rich text helps you communicate more clearly with your colleagues through style and formatting options. When your comments are easier to understand, you'll spend less time replying to questions for clarification.

This new functionality is not currently available in the Review and Approval work space.
